

# **Sage** Pastel Accounting

## ***Financial Year End and Build stamp on Backup files***

**Backup files** are a **critical** part of Sage Pastel Accounting as having a backup of your dataset ensures that you have a **restore point** should the need arise.

It is strongly advised that you make **backups** of all your **datasets** at **regular intervals** and that these backups are stored on **external devices** kept off site.

#### External devices:

- **External Hard Drive**
- **Flash/ Memory Stick**
- **DVD disk**

In V14 we enhanced the backup files by adding a **date and time stamp** to ensure that backups were no longer over written as well as make restoring the correct backup easier. In **Build 14.2.1** we have **further enhanced** the backup stamp.

#### Enhancements made to the Backup Stamp:

| File Name                                  | Date/Time         | File Type           | Size     |
|--|-------------------|---------------------|----------|
