Sage Intelligence Report Utility

Sage Intelligence Report Utility is now live!

No longer do you need to wait a year to get new Sage Intelligence reports, or spend hours creating reports from scratch to help you make sense of your business data. We have a library of additional reports, created according to customer feedback, available for you to access on an on-going basis.

Better still, our Report Utility will allow you to select the reports you would like and automatically import them to your Report Manager module. All you need to do is download the Report Utility and follow the easy steps to select the reports you would like. These provide a great basis for you to build useful reports for your business, with minimal customization required.

Check out this short video. See how quickly you can get up and running with the Sage Intelligence Report Utility.

Disclaimer: The Report Utility offers you free, downloadable reports that are compatible with the latest version of your Sage solution that Intelligence Reporting integrates with. While our expert report designers have tested these custom reports and every effort has been made to ensure that they are error free, they are created as a value-add and have not been subject to the rigorous quality assurance that the standard Sage Intelligence reports undergo. Therefore, no support is provided for these reports.
